

TECHNICAL SPECIFICATIONS

TRAVERTINE Classico Reale

Vein Cut

* The images can only give an idea of the material: in fact, as travertine is a natural product, it is subject to changes in color, spotting and structure.

Material Details
ORIGIN: own quarries
AVAILABILITY: high
CUT TYPE: vein cut and cross cut

CHARACTERISTIC

This material, due to its peculiar, perfectly horizontal veins, is used mainly in a vein cut structure. It is characterized by its uniform beige color.
