

TECHNICAL SPECIFICATIONS

TRAVERTINE
Classico Impero

Cross Cut

Vein Cut

* The images can only give an idea of the material: in fact, as travertine is a natural product, it is subject to changes in color, spotting and structure.

Material Details

ORIGIN:
own quarries

AVAILABILITY:
high

CUT TYPE:
vein cut and cross cut

CHARACTERISTIC

It has an ivory color with warm shades. Morphologically, it stands out for its high hardness and compactness. These features make it highly suitable for polishing, both vein cut and cross cut.
