

TECHNICAL SPECIFICATIONS

TRAVERTINE
Silver Impero

Vein cut

* The images can only give an idea of the material: in fact, as travertine is a natural product, it is subject to changes in color, spotting and structure.

Material Details

ORIGIN:
own quarries

AVAILABILITY:
high

CUT TYPE:
vein cut

CHARACTERISTIC

The warm ivory colored background is interrupted by recurrent veins with shades ranging from hazelnut to gray. Morphologically it is very compact and hard, a perfect material for cladding.
